## REGIONAL TRAINING UNIT

The Regional Training Unit (RTU) is designed to be an extension of the Highway Patrol Training Academy. It is an outreach training program sponsored by the Ohio Department of Public Safety that offers the opportunity for our Ohio law enforcement partners to attend much needed training in their regional area without requiring travel to Columbus.

Training is developed on a continual basis and posted to the Public Safety Training Campus (PSTC). This is a web-based program containing the Academy and RTU course catalogs. All members of the Ohio law enforcement community are encouraged to register with the Department of Public Safety and Ohio State Highway Patrol in order to search and register for available courses.

To obtain access to the PSTC, please contact the Department of Public Safety Help Desk at [ServiceDesk@dps.ohio.gov](mailto:ServiceDesk@dps.ohio.gov) (type "new user" in the e-mail subject line).

Once a user ID and password has been issued, a system user may search the course catalog for available courses and may register to attend. All course attendees will receive a certificate upon the completion of a training course.

### Hosting Agencies

The RTU partners with various colleges, universities, vocational schools, high schools and other law enforcement agencies to obtain logistical support and facilities for training. If your agency wishes to host regional training courses, please contact the RTU at (614) 466-4896, or via e-mail at [ADRTU@dps.ohio.gov](mailto:ADRTU@dps.ohio.gov).

## BASIC PEACE OFFICER TRAINING

The Basic Peace Officer curriculum meets all the required standards for basic law enforcement training in Ohio. The students are provided with quality instruction in all subject matters prescribed by the Ohio Peace Officer Training Commission. Additional advanced training is provided in several subject areas critical to the successful job performance of the modern law enforcement officer.

A special emphasis is placed on human relations training and on developing the officer's most frequently used skills. Experts in the many fields of criminal justice are brought to the Academy to present qualified instruction in their critical subject areas. Every officer is given specialized instruction in emergency vehicle operations, firearms proficiency and safety, self-defense tactics, physical conditioning, standardized field sobriety testing and electronic speed measuring devices.

Tentative reservations by letter may be submitted 90 days before the start of a class. ***The completed application, which includes the physical examination, must be submitted 30 days before the start of a class to secure the position.*** The class size will be limited to 30 students. An initial physical fitness assessment is required for entry and must be completed between 30 days and five days prior to the start of the class. On the first day of the Basic Peace Officer Training, all candidates will be tested for minimum acceptance standards. Those that fail to meet these standards will be dismissed from training.

Each student must bring a service handgun and 2,500 rounds of non-frangible, copper jacketed, clean-fire/reduced lead ammunition. This ammunition should be of a weight in grains comparable to the agency's duty ammunition. In addition, each student must bring an agency shotgun if other than a Remington 870, two cases of buckshot ammunition and one case of slug ammunition.

## OVI DETECTION & STANDARDIZED FIELD SOBRIETY

This four-day course is designed to enhance the skills required to detect, apprehend and prosecute persons operating a vehicle while under the influence of alcohol and/or drugs. The course includes classroom instruction and controlled exercises structured to give the officer practical experience in the evaluation of the adverse effects of alcohol/drugs on driving ability. In these exercises, the student is required to observe persons who have consumed controlled quantities of alcohol. Each exercise allows the student to use the most up-to-date sobriety testing to evaluate the condition of the drinker.

Classroom subjects include a detailed study of the elements of Ohio's OVI law, the drunk driver problem, enforcement decisions, chemical testing rules and regulations, arrest procedures, operating a video camera in the patrol car to apprehend and prosecute impaired drivers, and courtroom testimony. Students are trained and certified in both the theory and practice of the standardized improved sobriety test battery, consisting of the horizontal gaze nystagmus test, walk-and-turn test, and one-leg stand test, as developed and recommended by the National Highway Traffic Safety Administration.
