- Head Circumference:** Taken around the head, above the ears at the widest point.
- Neck Circumference:** Taken around the base of the neck following the collar bone at the front.
- Chest Circumference:** Measure around the fullest part of the chest, keeping tape under arms and around shoulder blades. Lower arms before reading the measurement.
- Waist Circumference:** Taken around the body at the belt line. Loosen belt and waist band of the pants to take a precise measurement (inside the waist band.)
- Hip Circumference:** Stand with heels together and measure around the fullest part of the hips.
- Sleeve Length:** Hold a tape measure from the base of the neck to the shoulder and down the arm to the break of the wrist. Arm should hang loose, bent 90° at the elbow.
- Inseam Measurement:** Taken from close up in crotch to midway on the heel of the foot.
- Height Measurement:** Taken without shoes on. Stand straight against a wall, measure from top of head to floor.
