

YOU ARE IN CONTROL

safety • responsibility • awareness

Did you know that teen drivers are Ohio's most at-risk group when it comes to being involved in a traffic crash? From 2009-2011, nearly 500 drivers between the ages of 16-20 were killed in traffic crashes.

As a result, the Ohio State Highway Patrol, in coordination with the Ohio High School Athletic Association, has developed a teen driver safety program for high schools statewide.

The goal of this program is to engage students and student athletes by informing and educating them about the dangers new drivers face. The program focuses on the importance of Safety – Responsibility – Awareness, reminding each student that “You are in Control” when behind the wheel.
